Practical - Project demo (10%)						
Functionality	Project is not functional	Less than half of the project is functional	More than half of the project is functional	Project is functional but some parts can be improved	Project is perfectly functional	
Functional Specification	Design does not include any of the mandatory requirements	Design includes very few mandatory requirements.	Design includes only some mandatory requirements	Design includes most of the mandatory requirements	Design includes all mandatory requirements and suitable non-requirements	
System interaction	Hard to figure out how to even get started	Hard to use	Can be used after some repetitive effort to learn	Easy to use after one or twice repetitive effort to learn	Intuitive, easy to use without any training	

Sub-attributes	0 Poor	1 Weak	2 Fair	3 Good	4 Excellent	Marks
Aesthetic	There is no clear theme presented; the size, color, and placement of each element did not work together	There are themes but not consistent	Themes and interface elements (size, color, and placement) need to be learned	Themes and interface elements (size, color, and placement) that should work together needs further improvement	Themes and interface elements (size, color, and placement) work together, creating a clear path to understanding the interface	
	The interfaces fail to enable users to understand how things will work as it is not consistent (no affordance)	The interface enables users to guess how things will work where the interface design presents a lot of inconsistencies (slight affordance but only one or two objects)	The interface enables users to understand how things will work, but users need help to use it as the consistency of the design needs more improvement (some affordance)	The interface enables users to better understand how things will work, but the consistency in design can be further improved	The interface enables users to easily understand how things will work, increasing their efficiency by presenting consistent design. (full affordance)	
	Too crowded and no appearance of a layout being designed.	Complicated layout arrangement with unnecessary features/elements.	Some layout are inflow, some are not	Simple layout but not up to professional look and feel	Simple layout but neat and professional.	
Beneficial to organization	Project is not beneficial	Less than half of the project is beneficial	More than half of the project is beneficial	Project is beneficial but some parts can be improved	Project is beneficial to organization	
Ready for implementation	Project is not ready to be implemented	Less than half of the project is ready to be implemented	More than half of the project is ready to be implemented	Project is ready to be implemented but some modules can be improved	Project is ready to be implemented
